Profile

AI/ML undergraduate with hands-on experience in generative AI, LLMs, and AI-powered workflows. Skilled in Python, FastAPI, and integrating models like Llama 3.3 via Groq for tasks such as resume parsing, skill matching, and interview Q&A. Built projects including an AI resume reviewer and a constraint-based resume parser backend. Strong foundation in prompt engineering, data extraction, and deploying practical AI solutions; eager to contribute as an AI Engineering Intern

Experience

03/2026 – 05/2026

AI video creation Intern

Remote

Ennem Marketings

- Conceptualised and scripted AI-generated video advertisements for businesses, translating client requirements into clear storyboards and prompts.
- Generated and refined video content using Kling AI and Google Veo, applying prompt engineering and motion control for realistic visuals.
- Edited and finalised videos for delivery, ensuring brand consistency, smooth transitions, and platform-ready output.

12/2025 – 01/2026

Full Stack & Web Development Intern

Remote

Future Interns

- Developed a React.js e-commerce storefront with dynamic product rendering, cart state management, and SEO optimisation
- Built and deployed a personal portfolio with responsive UI, dark mode, and Glassmorphism design
- Engineered a full-stack IRCTC-style booking system (Next.js 15, MongoDB Atlas, Vercel) with cloud authentication and database security

Projects

AI Resume Reviewer

Built an automated resume screening system using Groq's Llama 3.3 LLM to evaluate candidates against job descriptions. Implemented resume parsing for PDF/DOCX formats, structured data extraction with Pydantic schemas, and intelligent skill matching with scoring algorithms. The system analyses candidate qualifications, identifies skill gaps, and generates matching verdicts across multiple resumes.

Key Feature:

- Efficient resume screening system
- Core functionality (parsing, schema validation, skill matching, scoring)
- Business value (automates candidate evaluation)
- Skills demonstrated (LLM integration, API work, data extraction, Python)

Tech Stack: Groq, Llama 3.3, Pydantic, PDF/DOCX parsing

AI-Powered Resume Parser & Interview Assistant (Backend)

AI Chatbot for Portfolio

Developed a FastAPI backend that uses Groq's LLaMA 3.3 LLM to parse resumes and answer HR interview questions. The system extracts structured candidate data (skills, experience, education, projects) from PDF resumes using semantic understanding to handle inconsistent formats, then powers a conversational chatbot constrained to candidate information to prevent hallucination.

Key Features:

- PDF resume extraction and semantic parsing with constraint-based LLM prompting
- Pydantic schema validation for structured data
- Interview chatbot that answers questions grounded in resume data only
- CORS-enabled for frontend integration (frontend in development)

Tech Stack: Python, FastAPI, Groq API, PyPDF, Pydantic

Education

08/2024 – 05/2028	B.Tech CSE with specialization in AI/ML (Undergraduate)
Trichy, Tamilnadu	SRM IST Trichy
	Pre-final year student
	CGPA- 9.03
2024	Class XII
	The Air Force School (TAFS), Subroto Park
	83%
2022	Class X
	The Air Force School (TAFS), Subroto Park
	86%

Achievements

- 1st Place — PLAN-B Ideathon, SRM IST Tiruchirappalli: *Designed a solution addressing food wastage using predictive inventory tracking*
- NPTEL Certification — *Ethical Hacking: Completed coursework in system security, vulnerability assessment, and responsible practices*

Courses

07/2025 – 10/2025	Ethical Hacking: NPTEL Certification 
	IIT Kharagpur
	CS50 for Python
	from youtube

AI & Content Creation Skills

AI Video Generation (Hands-On Experience)	
• Kling AI 2.6 — Primary tool for cinematic AI video generation; experienced in prompt engineering for realistic visuals, motion control, and high-fidelity output • Pika 2.5 / Minimax — Fast social-media-ready clips; 3D and anime-style content • Runway Gen-4.5 / LTX — Precise camera movement control and advanced editing	

Video & Design Tools	
CapCut, Canva, basic video editing and visual content production	

Social Media Awareness	
Understanding of YouTube, Instagram, and short-form video content strategies	

AI Tools & Platforms	
Google Gemini 2.0 Flash, ChatGPT, Claude Code, Antigravity, VS Code	
Scripting & Storytelling	
Script structuring, social media content ideation, ad copy framing
