SUMMARY

Motivated Front-End Developer and AI/ML student with a strong foundation in React.js and modern JavaScript. Passionate about building responsive, user-centric web applications. Recently completed an intensive React development sprint, building functional e-commerce interfaces with complex state management. Eager to contribute to live production environments, optimize web performance, and develop scalable admin portals.

EXPERIENCE

Full Stack Intern | Future Interns
Dec 2024 – Present | Remote

Mini E-Commerce Storefront ([React.js](#))

Live Link: [Aditya's Store](#)

- Developed a fully functional shopping interface with **React.js**, featuring dynamic product rendering and complex **state management** for the cart.
- **Structured an Admin Portal** for product management, enabling organized handling of product data and inventory.
- **Applied SEO strategies** to improve storefront visibility by optimizing page structure and metadata.
- Built a custom checkout simulation with form validation logic to ensure data integrity.

Developer Portfolio (HTML/CSS/JS)

Live Link: [Aditya Biswal Portfolio](#)

- Designed and deployed a personal portfolio website to showcase technical projects.
- Optimized for mobile responsiveness and cross-browser compatibility.
- Managed version control via Git and automated deployments using Netlify.

EDUCATION

B.Tech in Computer Science (Specialization in AI/ML)
SRM IST Trichy • Aug 2024 - Present
