EXPERIENCE

AI Video Creation Intern — Ennem Marketings

03/2026 – 05/2026 | Remote

- Conceptualised, produced, and edited AI-generated video ads for client campaigns using Kling AI and Google Veo, applying prompt engineering for realistic motion and platform-ready delivery.

Full Stack & Web Development Intern — Future Interns

12/2025 – 01/2026 | Remote

- Developed a React.js e-commerce storefront with dynamic product rendering, cart state management, and SEO optimisation.
- Engineered a full-stack IRCTC-style booking system (Next.js 15, MongoDB Atlas, Vercel) with cloud authentication and database security.
- Built and deployed a personal portfolio site with responsive UI, dark mode, and glassmorphism design.

PROJECTS

AI Resume Reviewer | Groq, Llama 3.3, Pydantic, PDF/DOCX parsing

- Built an automated resume screening system using Groq's Llama 3.3 LLM to evaluate candidates against job descriptions.
- Implemented PDF/DOCX resume parsing, structured data extraction with Pydantic schemas, and skill-matching/scoring algorithms.
- Analysed candidate qualifications, identified skill gaps, and generated matching verdicts across multiple resumes.

AI-Powered Resume Parser & Interview Assistant (Backend) | Python, FastAPI, Groq API, PyPDF, Pydantic

- Built a FastAPI backend using Groq's Llama 3.3 LLM to parse resumes and power an HR interview Q&A chatbot for a portfolio site.
- Extracted structured candidate data (skills, experience, education, projects) via semantic parsing of inconsistent PDF formats, validated with Pydantic schemas.
- Constrained chatbot responses to resume-grounded data only to prevent hallucination; CORS-enabled for frontend integration.
